The MAILING DATE of this communication appears on the cover sheet with the correspondence address Period for Reply							
A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION. - Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication. - If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication. - Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Response to Arguments

Applicant's arguments filed 9-11-2006 have been fully considered but they are not persuasive.

- 1. The examiner has all the IDS documents now. The examiner's objections to the drawings are overcome. Thank you.
- 2. The applicant argues there is no motivation to combine (and no reason given). The examiner disagrees and gives each claim its broadest reasonable interpretation. The claim does not specify what a first/second radio network can/can't be, hence the examiner interprets them as BTS's/BSC's from different radio networks. Thus during a handoff, one network component is "controlling" the entire operation (eg. both network components). The concept of (soft) handoff is taught by Beven.

Beven specifically teaches everything from the claim except that he doesn't disclose using GAI and transmitting the GAI. The examiner notes that these are well known concepts/entities in cellular networks and would be used by one skilled.

The examiner then put forth both the 3GPP Spec and Rangarajan as teaching using some/all of the "cell identity" to define the location of the mobile unit (eg. Beven teaches using sector ID's). Hence Beven would use sector ids, cell ids, etc. for handoff procedures (as arrived at by the combination).

Lastly, the examiner put forth a motivation to combine (see page 4):

"...It would have been obvious to one skilled in the art at the time of the invention to modify Beven, such that GAI is used, to provide means for using location information to support the handoff procedure by transmitting said location information to the new BSC/BTS so it can more quickly/optimally support the new mobile roaming into it's area/cell...."

Beven teaches sectorized handoffs, so by using cell location information, it can optimize both intra and inter sector handoffs since the network will have a much better understanding of exactly where the mobile is instead of just knowing the mobile is "somewhere" in the sector (and/or connected to a completely different BTS).

3. A more favorable outcome may occur if the applicant were to amend as follows: Claim 21 + 22 + (23 or 24) + (25 or 26) + 27 + 28. (eg. 6 claims combined)

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Stephen M. D'Agosta whose telephone number is 571-272-7862. The examiner can normally be reached on M-F, 8am to 5pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Bill Trost can be reached on 571-272-7872. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
